

PORTFOLIO

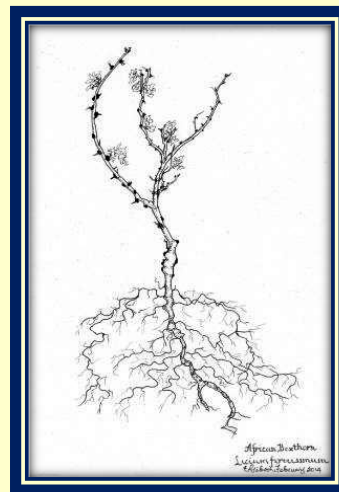

Silhouettes in Botanical Illustration

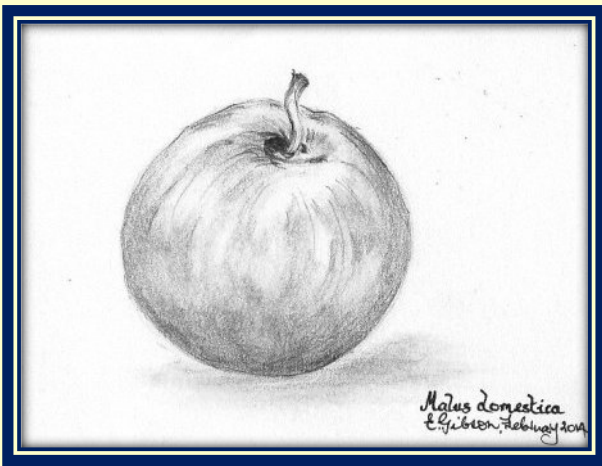

Elizabeth Gibson

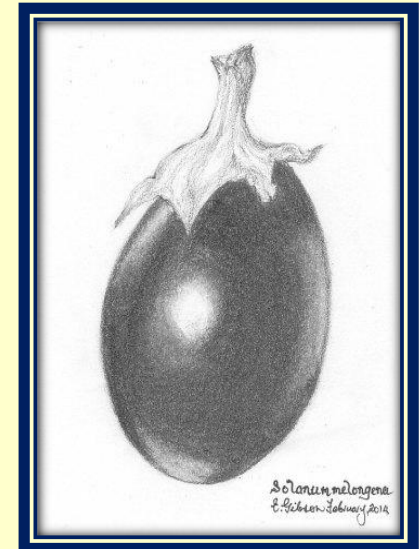

ARTIST STATEMENT

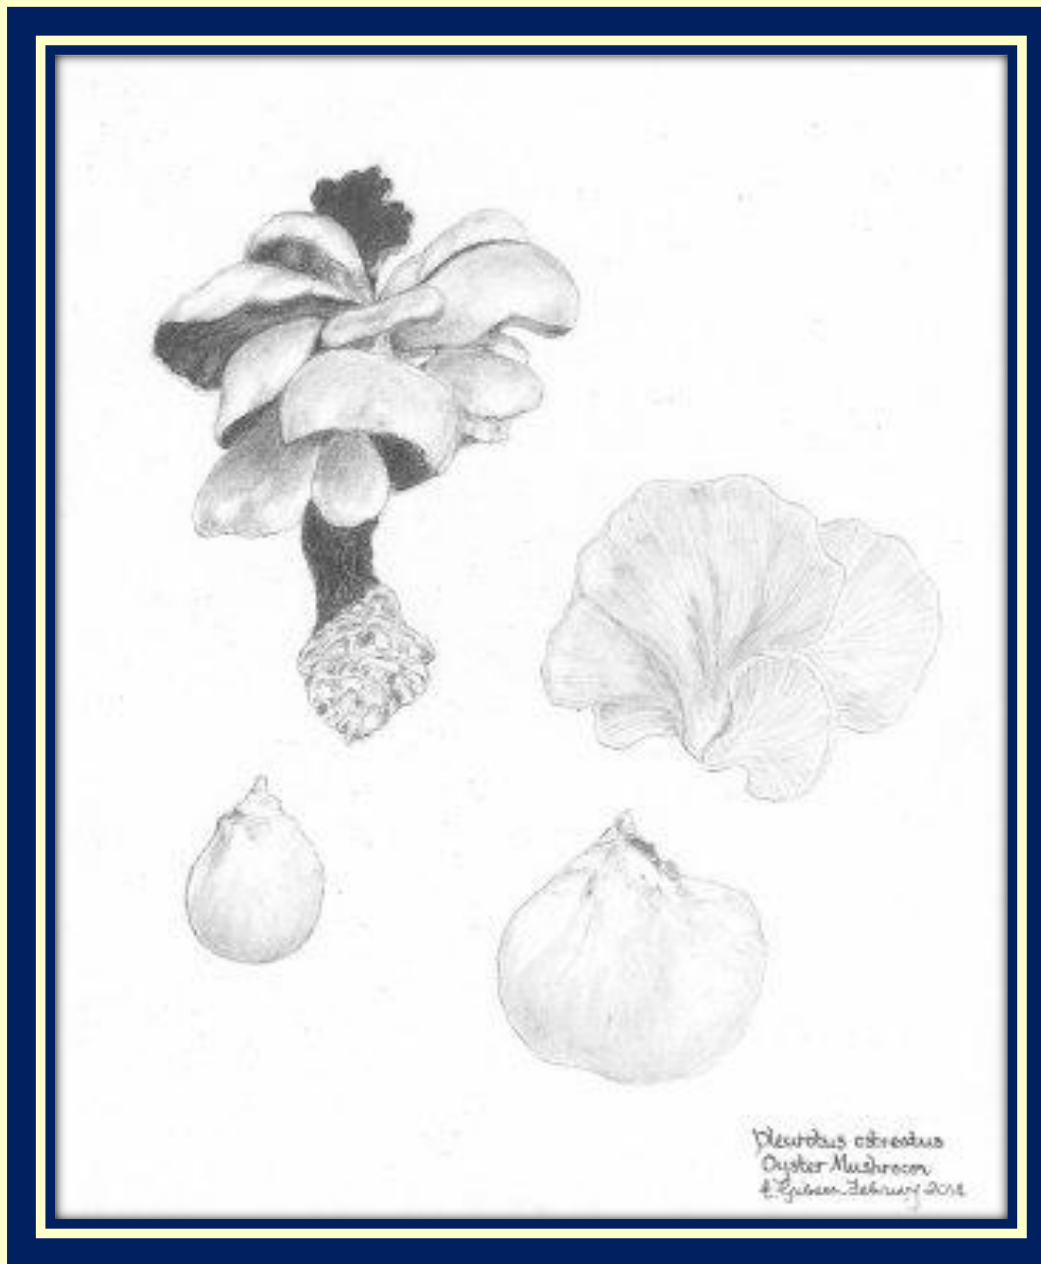

A deep affinity with the land from a lifelong connection, together with its expansive landscape, horizons and unique flora within, reflects my objective to chart and trace the elements of nature through the narrative of art. Within the Australian environment, through the extremities of drought and flood to bushfire, the flora reflects the enormity of these variations and makes one aware of the significance of the true intricacies and wonders underlying the beauty and resilience of nature. This sublime essence cannot be accurately portrayed by the botanical artist, consequently, our artistic expression and artworks can merely be ‘silhouettes’ of nature’s infinite dimensions.

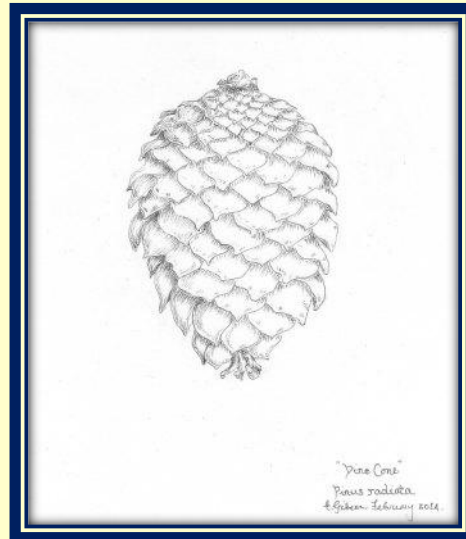

GRAPHITE PENCIL

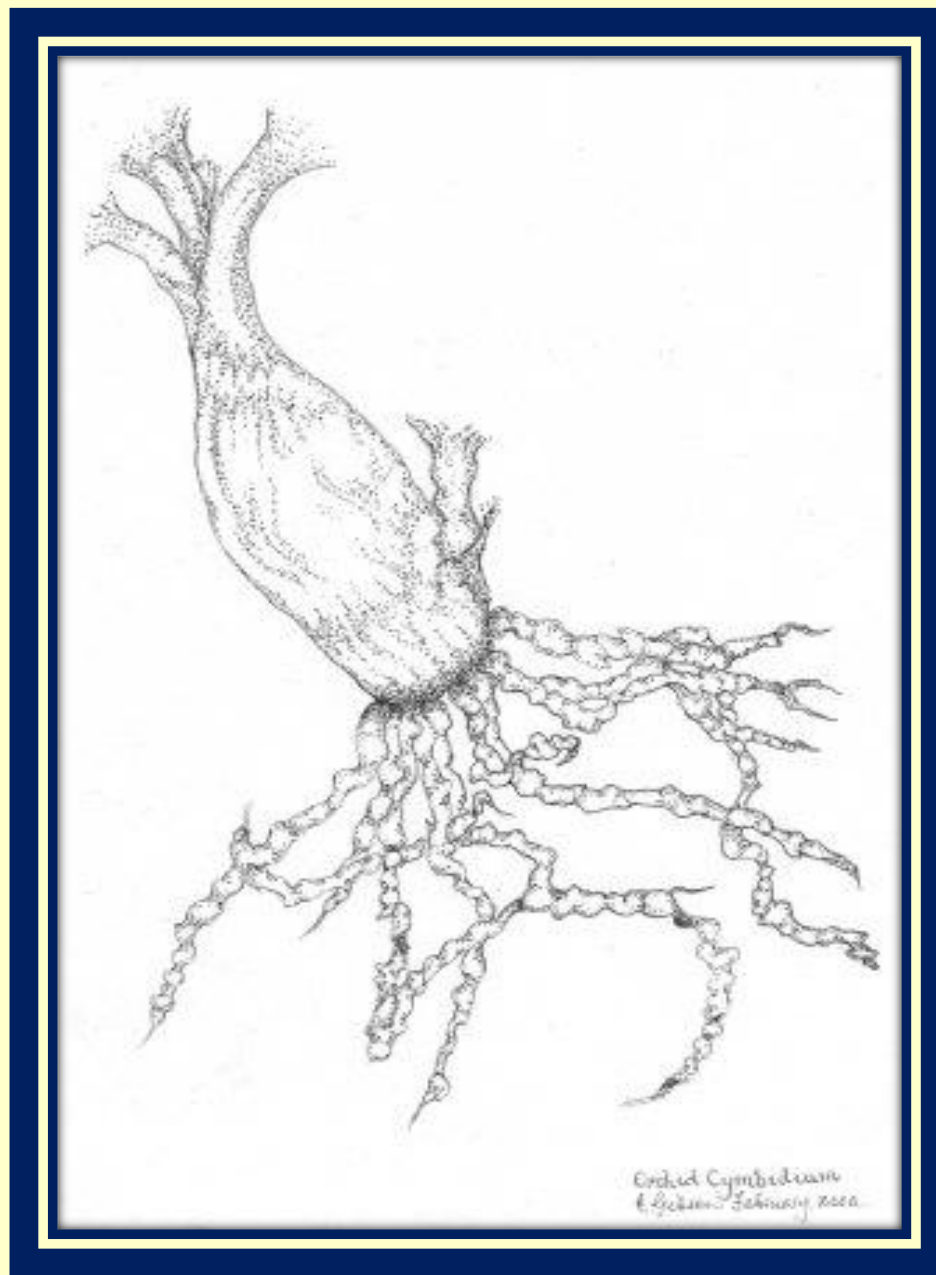

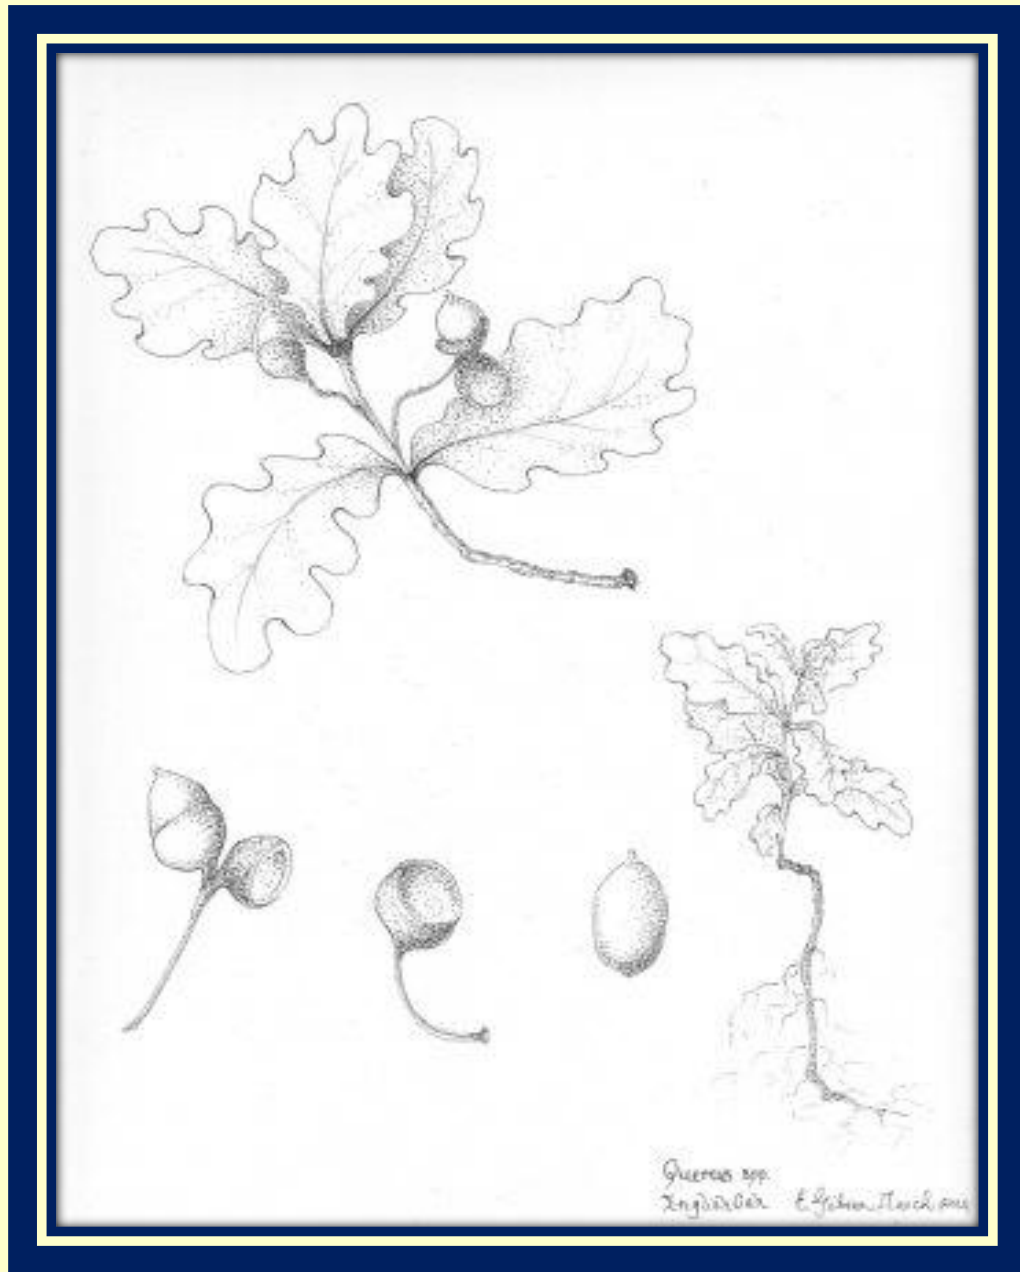

Pleurotus ostreatus. 2014. Graphite Pencil on Arches 300gsm hot pressed water color paper.

PEN AND INK

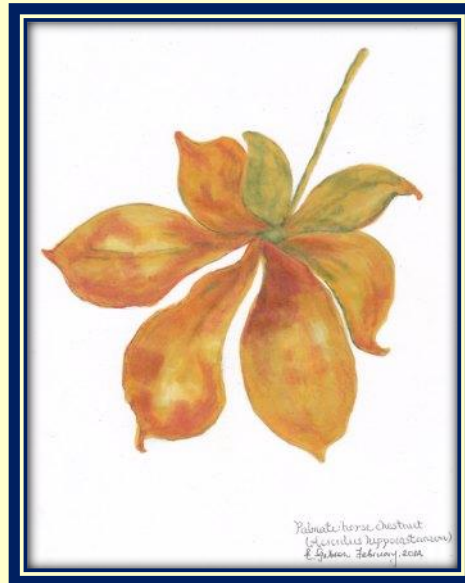

Orchid cymbidium.2014. Pen and Ink on Arches 300gsm hot pressed water color paper.
